

# **QUIK** Electrical Services

*We can help you with all electrical safety and installation around your home....*

## **TIPS & ELECTRICAL ADVICE...**

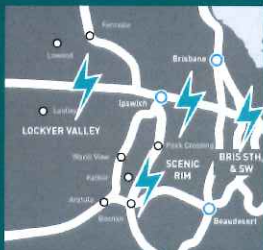

- Have you had RCDs (safety switches) installed and do you test them every three months?
- Do you have the appropriate smoke alarms and do you test monthly? Do you replace the batteries yearly?
- Do you always use a licensed electrician for electrical work?
- Is there any damaged powerpoints or switches in your home?
- Do you always turn all the power off before you go into the ceiling space?
- Have you checked that your ceiling insulation does not cover your downlights?
- Are your outside party lights suitable for outdoor use and Australian compliant?
- Is your solar power system checked and serviced every year?
- Is your home's earth stake is in good condition?
- Are there any tree branches hanging over your power lines?

We hope this advice has been helpful. If you have any concerns regarding electrical safety please contact us.
